

TOBACCO GROWERS' MEETING

We have been requested to announce that there will be a meeting of tobacco growers of Clark county at the court house Saturday, Dec. 31, at 2 p. m. All growers are requested to be present.

RETURNS FROM NEW YORK

Rev. Frank B. Wentworth Spends Month in East and Attends Big Banquet.

The venerable Rev. Frank B. Wentworth, archdeacon of the diocese of Lexington, has returned to his home in Winchester, after a month's trip in the East. While in New York he was the guest of the Southern society, and attended the banquet given at the Waldorf-Astoria. The governor-elect of New Jersey, Woodrow Wilson, and Governor-elect John A. Dix of New York were present and made addresses.

The archdeacon says that the naming of President Taft created great enthusiasm, as also that of Roosevelt. The chairman, Mr. MacAdoo, introduced Governor Woodrow Wilson as "one who would land still higher than he had yet." There was considerable talk at the meeting of the probability of his nomination by the Democratic party as a candidate for President. Governor Wilson remarked in his response that he did not care where he "lit," so that it was on some fellow's neck.

INDICTED ON TWO COUNTS

Is Found Innocent of House-breaking and Is Confronted by Another Indictment.

Sevalian Smith, colored, was much disappointed Friday morning when he succeeded in proving himself innocent of a charge of house-breaking, only to be brought back on another charge.

The jury had returned a verdict of not guilty, under instructions, on a charge of breaking into a house near Indian Fields last September. Judge Benton read the verdict and told him he could go. He had gotten almost out of the court house when another indictment was found, charging him with a like offense committed at a later date. He was brought back and with a sad expression, on his face pleaded not guilty to the other charge. He will have to stay in jail until Saturday morning, when he will be tried on the second charge.

E. S. JOUETT VS JOHN G. WHITE

Suit Is for a Sum of Over \$20,000. Which Plaintiff Alleges Is Due Him for Sale of Timber Land.

The suit of E. S. Jouett vs. John G. White was begun in the Clark circuit court Friday morning. The suit is for a sum of over \$20,000, for part commission which plaintiff alleges was due him in a sale of timber land in Eastern Kentucky. Judge Benton stated to the attorneys on both sides Friday morning that the case would have to be finished this week, if midnight sessions had to be held.

ANNOUNCES FOR CIRCUIT CLERK

Mr. Lee S. Baldwin Says Agreement Will Stand Should He Be Elected to Fill Out Term.

Mr. Lee S. Baldwin has announced himself as a candidate for the office of circuit court clerk to fill the unexpired time of Mr. Jonas R. Bush. In a statement Friday morning Mr. Baldwin

win said that he promised, when appointed by Judge Benton to act until an election could be held that half of the proceeds of the office should go to the widow of Mr. Bush, and that the same agreement will stand should he be elected to fill out the unexpired term. The election will be held in May.

PURCHASES POOL ROOM BUSINESS

Mr. B. T. Wills Buys Place of Messrs. May & Gray, and Will Take Possession Jan. 1.

Mr. B. T. Wills Friday morning purchased the pool room business of Messrs. May & Gray on North Main street and will take possession Jan. 1. Mr. Wills will install an up-to-date lunch counter and make other improvements.

WINCHESTER SHAVING PARLOR.

After Jan. 1 I will run on a cash basis only, and in order to do this I will go back to the original price of 10c for a shave, except on Sunday, when the price will be 15c. The reason for this is because I cannot afford to pay 60c on the dollar to carry an account, and then cannot collect in due time. I hope this will meet with the approval of the public. J. R. CAHAL, Prop.

LITTLE CHILD IS BADLY HURT

Three-Year-old Son of Mr. Nelson Holder Has Foot Almost Severed by an Older Brother.

The three-year-old son of Mr. Nelson Holder was seriously injured by an older brother while playing at the home in the county Thursday afternoon.

The little boys were playing with an ax and in some way the older boy struck the younger one's foot and almost severed it. Dr. Howard Lyon was summoned and dressed the wounded member and if no complications arise it will be saved.

CIRCUIT COURT.

In the Clark circuit court Thursday afternoon Mrs. Nora Boone was \$500 on a charge of being a nuisance, but on a promise to leave the state her fine was reduced to \$50, and she left. Millie Cary was also fined \$10 and costs on the same charge, and Mr. Newt. Osborne was fined \$50 for shooting on the highway.

SAYS REPORT WAS MISTAKEN

Was Incorrect in That It Stated That No Bond Was Given by Albert Dunham.

The following letter was received by The News Friday from Mr. Ab Dunham, who was tried in police court Monday night:

Winchester, Ky, Dec. 30, 1910. Editor of The Winchester News: Dear Sir: Being a subscriber to your paper for the last year, I have always found it an honest and upright paper, so will write in regard to a slight mistake published in yesterday's paper in regard to my trouble with Grant Edgington, and my not being able to give bond was all a mistake.

The paper stated there had been an examining trial which was all a mistake, as I have never pleaded to anything.

Hoping you will correct the mistake and oblige,

ALBERT DUNHAM.

Mr. Dunham gave bond in the sum of \$200, but it was not until after The News was on the streets that the matter had been closed up. After the trial Monday night Mr. Dunham was unable to give bond, but friends came in the next day and arranged the matter satisfactorily with Judge Pennington, and he was released. The paper gladly makes the correction.

FATHER HAS PUBLIC JOB

Declares Young Charley Taft in Answer to Questions Propounded to Him at Dinner Party.

WASHINGTON, Dec. 30.—The President told a new story on his son Charley to some callers at the White House Thursday. Charley is never averse to claiming all the perquisites that belong to a son of the President, such as sitting on the players' bench at ball games, etc., but he is not given to boasting. The other evening he was a guest at a young folks' dinner at the home of a prominent official. Resplendent in his new tuxedo suit, Charley sat beside a pretty miss, the daughter of a senator.

"What's your name?" asked the little lady midway in the dinner. "Charley," replied the son of the President.

"Where do you live?" was the next question. "Oh, here in Washington."

"But where?" persisted the miss. "Pennsylvania avenue," responded Charley, nonchalantly.

After a pause she put the final question: "What does your father do?"

"Oh, replied young Taft, "father's got a public job."

The President also told of an embarrassed caller who was presented recently by a senator. Feeling it necessary to make some appropriate remark, the caller advanced as the President stood up, and, springing the Taft hand exclaimed gaily: "Mr. President, I'm very glad to meet you. I've had a whole lot about you."

NARROW ESCAPE OF PASSENGERS

Cool-headed Brakeman Probably Prevents Train From Plunging Into Kentucky River from High Bridge.

LEXINGTON, Ky., Dec. 30.—The application of airbrakes by a cool-headed brakeman probably prevented Queen and Crescent train No. 2, the Florida Limited, from plunging from the top of High Bridge to the waters of the Kentucky river, 176 feet below. Thursday evening at 5:30 o'clock, when the observation car attached to the train left the rails within 300 yards of the structure, severely injuring a number of persons and reducing the coach to splinters.

The train was running at a high rate of speed, as it was reported one hour behind its schedule, and when it struck a switch about 300 yards from the bridge the last car, which was an observation car, split the switch and jumped the rails. The car did not immediately leave the track, but bumped along the ties for a considerable distance, then tumbled into a bank, where it was demolished. According to the report of passengers on the train, when it was finally brought to a standstill the engine had already gone on the bridge.

Much credit is given by those who witnessed the wreck to the action of a brakeman, whose name could not be learned last night. He is said to have displayed remarkable presence of mind, applying the airbrakes and probably preventing the whole train from being thrown off the bridge and into the river. He was also severely injured in the smashup, but after having his wounds treated here, continued his run.

After the wreck the smashed car was left behind and the train continued to Lexington. Dr. Hugh L. McLean was picked up at Wilmore and at Lexington Dr. R. C. Faleoner was secured to care for the injured.

There were about 12 persons on the car when the accident occurred and none escaped without bruises, scratches and a severe shaking up. Most of the injured stopped in Lexington for treatment, but several persons, after having their wounds dressed, continued their trip. The most seriously injured were brought to the Phoenix hotel, where they were given medical attention.

IN FAVOR OF GOOD ROADS

Bill as Approved Is Much the Same as the Measure Drawn by the Committee of the Good Roads Ass'n.

LOUISVILLE, Ky., Dec. 30.—A good roads bill, to be offered before the next general assembly for consideration, was approved at the session Thursday of the Kentucky Good Roads congress at the Seelbach hotel. The bill as approved is much the same as the measure drawn by the committee of the Good Roads association and submitted to the congress, with the exception of a few amendments and additions.

The only opposition to the tax came from representatives of Christian county. They stated that the opposition was not selfish, as Christian county will receive about as much as it pays out under the bill. Judge Duffy of Christian asserted that there was need for county roads, but that there was no need for state roads. He said that the latter were not a necessity, but a convenience, and were "used only by the touring car, the gypsy wagon and the tramp."

A committee was appointed by Chairman G. T. Wyatt to draft the bill in regular form so that it will be ready for presentation to the state legislature at the next session. The members of the committee are: Harry A. Sommers, Elizabethtown, chairman; Senator Joseph F. Bosworth, Middlesboro; George L. Pickett, Shelbyville; Prof. W. E. Rowe, Kentucky State university at Lexington, and Senator G. T. Wyatt, ex-officio.

INCREASE OF TEN PER CENT

Fifty Railroads Running Into Chicago Will Pay More to 75,000 of Their Trainmen.

CHICAGO, Dec. 30.—The conductors and trainmen on 50 railroads running north, south and west of Chicago received an increase in wages of 10 per cent Thursday. The increase was granted after months of negotiations and it affects 75,000 members of the Brotherhood of Railroad Trainmen and the Order of Railway Conductors. It will mean an added expense of \$5,000,000 a year to the railroads.

The increase, although signed late Thursday, becomes effective from Thursday morning. The negotiations resulting in the increase were begun November 28 and conferences were held daily between A. W. Trenholm, chairman of the managing committee of the railroads; A. B. Garretson, president of the Order of Railroad Conductors, and W. G. Lee, president of the Brotherhood of Railway Trainmen.

Canadian trainmen also will be affected, employees of the Canadian Northern railroad being represented in the conference. The employees of this road are in the peculiar position of getting an advance for which they had not asked. When the move for an increase was begun, Canadian Northern employees refused to join, fearing the defeat of the plan. The management of the road, however, cooperated with the other roads and agreed to the increase.

NEW CHAIRMAN FOR NATIONAL COMMITTEE

President Taft Has Selected John W. Weeks of Massachusetts to Succeed Postmaster Gen. Hitchcock.

NEW YORK, Dec. 30.—A Washington dispatch to the Herald is as follows:

It is planned by the leaders of the Republican party, with the hearty approval of President Taft, to have a special meeting of the Republican national committee in January at Washington, when in all probability John W. Weeks of Newton, Mass., will be elected chairman.

Postmaster General Hitchcock, who tentatively resigned as chairman in favor of J. F. Hill of Maine, who is acting chairman, will relinquish his connection with the committee altogether and devote all his time to the postoffice department, where he has a great work calculated to consume all his time. It is no reflection on Mr. Hitchcock that he is finally to cut the strings which bound him to his committee. It was simply a question whether he should give up the postmaster generalship. The President has the highest regard for Mr. Hitchcock's political sagacity and executive ability.

This action in making Mr. Weeks chairman is the first great Republican move in the battle for the Presidency in 1912.

Taft is the leader. He will be re-

nominated, as repeatedly said. He is now engaged in inspiring other members of the party with hope. He has had a rather hard task, but he has won. Those who came here so depressed at the opening of congress now see light ahead and are prepared to go down fighting, if go down they must. The President very quietly has assumed the full management of policies. He has also brought together many elements of the party that were wide apart.

His success amply justified the prediction made the Monday congress opened, that Taft would so impress the Republicans in congress that they would unite and pass his legislation.

OPINION IN THE NIGHT RIDER CASE

Judge Cochran in United States Court at Covington Passed on the Matter Wednesday.

COVINGTON, Ky., Dec. 30.—In the United States court Wednesday Judge A. M. Cochran handed down an opinion in the celebrated Night Rider case on W. S. Henderson against sundry citizens of Bracken county, overruling the motion for a new trial in part and sustaining it in part.

It will be remembered that about 150 men surrounded the tobacco warehouse of Henderson in Augusta and by angry talk and demonstrations demanded that he sign a contract not to buy any more tobacco. Henderson testified that they laid hands on him and threatened to throw him into the river if he refused. He signed. The crowd then visited others and required them to sign and forced one Reynolds Hook to the river's edge before he would sign. Henderson received a verdict for \$6000 against about a dozen defendants, all he could identify.

In the trial evidence was admitted as to the acts of the mob in forcing others to sign after leaving Henderson. Judge Cochran holds that evidence was competent, but finds that the plaintiff failed to prove that all the defendants against whom he recovered a verdict continued with the mob after it left him. For that reason he orders a new trial as to the defendant Chas. Fickrell, Jas. Stone, Paul Gerhard, Wm. Kurtz and Vachel Jordan, and as to all the other defendants the motion is overruled on condition that the plaintiff reduce the amount of the verdict from \$6000 to \$5000, the court saying that while he did not wish to invade the province of the jury in fixing the amount of the damage, "I will feel better satisfied if they are somewhat less."

This case was twice tried. The first jury was composed in part of members of the Society of Equity and returned a verdict of \$250. Judge Cochran set aside this verdict, holding that he had probably erred in permitting these interested parties to sit on the jury. He then ordered a jury summoned from non-tobacco producing counties, which returned the \$6000 verdict. Myers & Howard represented the plaintiff and the late Judge Geo. Doniphan and Hargitt & Kinney the defendants.

FALSE RUMOR IS CORRECTED

Report That Passenger Train Had Been Wrecked and Many Persons Injured Without Foundation.

The L. & E. passenger train from Jackson, due here at 9:12, was two hours late Friday morning. A small slide occurred between Jackson and Torrent, which was cleared away without damage. It was reported in Winchester early in the morning that the passenger train was wrecked and several persons had been killed and others injured, but the rumor was soon corrected.

UNIFORM SYSTEM OF BOOKKEEPING

Will Be Installed in All National Banks, Is the Order of Comptroller of the Currency.

WASHINGTON, Dec. 30.—Disclosures following the forced liquidation of the Quana National bank of Quana, Tex., ten days ago, caused the comptroller of the currency Thursday to issue an order directing every one of the 7200 national banks in the United States to install what practically amounts to a uniform system of bookkeeping.

Investigation disclosed that the bank had been doing business for the last two years, although undoubtedly insolvent, and although inspected at regular intervals by national bank examiners were unable to learn the bank's true condition, largely because the management refused to keep a proper record of its business transactions.

In a statement Comptroller Murray says his examiners were hoodwinked for two years by the way the bank handled its notes.

To insure a system of bookkeeping by which the true condition of a national bank can be determined at any moment the order issued directs examiners, on finding a bank whose exact condition they not determine to report the fact by telegraph to Washington and give the management of the bank 30 days to install the necessary books.

TOBACCO GROWERS.

To the Tobacco Growers of Kentucky, West Virginia, Ohio, Indiana and Missouri:

A meeting of tobacco growers who have not been affiliating with the Burley Tobacco society, held at Lexington, Ky., Dec. 19, 1910, declared for an independent organization of growers for the purpose of securing fair prices for their tobacco.

At this meeting it was determined to call a more general meeting to be held at Lexington, Jan. 5, 1911, at 1 o'clock p. m., and the growers who have hitherto remained out of the pool are hereby called to meet at their respective county seats on Friday, Dec. 30, 1910, at 1 o'clock p. m., for the purpose of selecting delegates to attend the meeting in Lexington Jan. 5, 1911, to form a permanent organization of the heretofore independent tobacco growers of the Burley district.

Said county meetings are hereby requested and urged to instruct their delegates as to what action they shall take at the Lexington convention of Jan. 5, 1911. B. F. HILL, Chairman.

WRIGHT MAY GET IN SENATORIAL BATTLE

NASHVILLE, Tenn., Dec. 30.—Gen. Luke E. Wright, former secretary of war, is quoted in dispatches received here in regard to the senatorial situation as saying: "It is not unlikely that I will get in the game."

This is taken as an indication that Gen. Wright will be one of the opponents of Senator Frazier when the senate meets in January.

Gov.-elect Hooper has announced that he positively would not be a candidate.

THE TOBACCO SITUATION.

We do not know enough about the men who are at the head of the new tobacco movement to advise. We do know, however, that the price of tobacco has dropped and that the 1909 pooled crop is bringing comparatively little. We further know that as certain as fate the American Tobacco company will cut the price away down within the next year or two if there is not something done to unite the growers.

A pool, to be successful, should have the county unit. Each county should hold its own tobacco. The general organization should manage the sale and negotiations toward that end. The new movement so provides.

We believe it would be wise for the growers of Clark to send representatives to the convention at Lexington on Jan. 5. Some one ought to be on the ground to size up the situation and to be able to advise us intelligently.

WE NEED THE MONEY.

A number, but all too few, are dropping in from day to day in response to our notice to pay up their subscription to The News. Why is it that so many mail subscribers believe that the last thing to pay is a newspaper bill. They either think we do not need the money or forget all about it.

It costs from \$12,000 to \$15,000 a year to run this paper. Our labor expense is over half that amount. Nearly all of it is kept and spent in Clark county. This paper is one of the best enterprises in the community.

Now, all we ask is that our mail subscribers do their share. No one of them owes more than a few dollars. It amounts to very little to the individual, but in the aggregate it means much to us.

We cannot run the paper on wind, nor can we dodge the ruling of the postoffice department if we allow our subscribers to become delinquent for three months. The Washington authorities insist that a daily paper must have a clean list.

We are endeavoring to live up to the ruling, and for that reason if you find the paper cut off you will know it is because you are more than three months in arrears. Send along a

check and we will gladly put you back on the list. It is not because we will not trust you, but on account of the ruling.

We are urging all to pay up in advance. The subscription price is payable in advance for all mail subscribers. But more than that, we do not want to bother you with notices every few months, nor can we afford to send them out.

The insanity dodge is being carried to the limit. Even bank looters are claiming the benefit of insanity.

We met a gentleman who is a member of the legislature from one of the Ohio river counties and wants to be senator, on a train the other day. He is opposed to the road tax. In our conversation it developed that he thought Gen. Humphry Marshall and Thomas Marshall were one and the same person.

The regard that the politicians have for the newspapers was shown at Louisville during the press meeting. The candidates were there with one accord.

If the eagerness with which the vote buyers and vote sellers of Adams county, Ohio, are fussing up should become epidemic the voting population of the country would be materially decreased.

Members of the New York Jockey club raised about half a million dollars to defeat the anti-gambling bills before the New York legislature. A remarkable thing about it is that the club is unanimous in not knowing who gave the money or how it was used.

There are too many banks in Kentucky.

Superfluous words and letters in words that are not given a sound can just as well be omitted.

A report from the pension bureau shows that the Union soldiers of the Civil war are dying at the rate of one hundred a day.

says The Louisville Courier-Journal. This is a sensible determination and does them credit.

At a meeting held Thursday the subject was thoroughly discussed and committees that had been appointed to investigate the results of advertising in other cities made favorable reports. As a result of investigations he had made one of the committees submitted the following figures:

With an expenditure of \$20,000 Omaha secured 60 factories, which 2000 operatives employed; Des Moines \$14,000; 20 factories with 600

workmen; Kansas City expended \$16,000, got 80 factories with 36,000 men; Cincinnati, \$22,000, 30 factories, 900 men; Memphis (first three months), \$2900, six factories; San Antonio, \$17,000, 18 factories, 1800 men; Buffalo (two months), \$3000, 12 factories, 750 men; Lynchburg (one month), \$600, two factories and 400 men.

In addition to the foregoing some figures were shown relating to the good accomplished by an advertising campaign in Pensacola, Fla. In that city a fund of \$100,000 was raised by the property owners to be used in three years. In the first three months

\$15,000 was expended, with the result that city property advanced \$5 a foot and farms \$15 an acre, in the meantime several hundred city lots and a number of farms had been sold at a direct consequence of the campaign of publicity.

It was shown at the business men's meeting that 200 cities in the United States are conducting regular advertising campaigns. Memphis has spent \$50,000, and is so well pleased with the results that she has gone to work to raise \$50,000 more. The evidence was all of the same tenor and the men who attended the meeting

were not slow to reach a decision that what was good for other cities would be equally efficacious for Nashville.

No city which hopes to keep abreast of other cities can afford to neglect the publicity plan altogether and to get the best results there should be systematic and continuous effort in that direction.

GENTLEMEN.

THE KENTUCKY EDITORS.

The Kentucky editors are in Louis-
ville for their mid-winter Press asso-
ciation meeting and for the purpose
of participating in the Good Roads

congress. Louisville is always glad
to welcome these representatives of
the press and it is to be hoped that
every one of them will find the pres-
ent visit both pleasant and profitable.

Kentucky's newspapers compare
favorably with those of any other
state in the Union. Kentucky editors
as a whole are as progressive and as
enterprising as may be found any-
where on the globe. There is no more
important factor for advancement
than a well-conducted newspaper, and
Kentucky is fortunate in having a
large number of papers which are
well conducted. Through no other
agency is accomplished so much of
valuable and unselfish work for the
public good. The average newspaper
editor is an indefatigable "booster."

He booms his town, he lauds his coun-
ty and he sings paeans of praise for
his state. He does these things not
desultorily or intermittently or half-
heartedly. It is a part of his business
to "boost" when others knock; to
push where others kick; to pull where
others balk. And he is steadily and
continuously on the job.

It must be admitted that much of
the editor's laborious endeavor to ad-
vance the interests of his community
is put forth under conditions quite
the reverse of encouraging. His
optimism must needs be like Mark

Tapley's "particular polity"—always
on tap and most in evidence when
circumstances are most depressing.
The public is not always appreciative
and no man does more or gets less
than the faithful advance agent of
prosperity who makes it the chief
end and aim of his journalistic ef-
forts to "boost" for the common
good. To the editor who is really in
love with his work this is a small
matter, since he has with him the
ever-present consolation that "virtue
is its own reward."

The newspapers of Kentucky are
doing their full share for development
and improvement and for progress
along varied lines of advancement.
The mid-winter meetings of the Press
association are events of interest and
importance in current history. The
present gathering in connection with
the Good Roads conference is of ex-
ceptional importance and should be
productive of beneficial results for
the entire commonwealth.—Courier-
Journal.

But Is Under Indictment in the Whole-
sale Bribery Charges in Adams
County, Ohio.

WEST UNION, Ohio, Dec. 30.—
Seventy-three more indictments were
returned Thursday by the grand jury
which is probing the selling of votes
in Adams county, under the direction
of Judge A. Z. Blair. Seventy per-
sons were arraigned, making a total
to date of 376 arraigned, and 1071
indicted.

Judge Blair said Thursday night
that it may become necessary to in-
dict some men who have bought votes,
in order to make a clean sweep of all
the guilty ones and to bring about the
desired reform.

It was discovered that not a single
voter will be left in one school dis-
trict in Jefferson, which includes the
town of Wamsleyville. Every male
citizen has been indicted, but none
has been arrested.

Two more ministers, both residents
of Green township, were indicted
Thursday. The court officials decline
to give out their names. Each re-
ceived \$5 for his vote.

SCENE FROM "THE BLUE MOUSE."

"THE BLUE MOUSE"

Proved To Be Good Comedy Well
Played.

The much-talked of and in many
places strongly condemned "Blue
Mouse" was presented at the Bever-
ley theater last night to a large au-
dience, if which shocked, gave no evi-
dence of the fact, for the applause
was continuous. While the play
probably is considered too broad, yet
the farce is so good and the ridicu-
lous parts so overdone that it cer-
tainly should not be demoralizing to
the pure minds. Miss Gertrude Lutz

as the Blue Mouse is a very cute
actress and though she is in for graft
and a good time she does it in such
a manner that you are bound to ad-
mire her talent, if not her actions.
The entire cast is good, especially the
fat, good natured Mr. Llewellyn.

A noticeable feature was the num-
ber of married men who were present
without their wives, though the lad-
ies who were present seemed to thor-
oughly enjoy the entire play.—Staun-
ton, Va., Dispatch.

Canada and United States Repre-
sentatives Agree to Recommend In-
ternational Commission.

WASHINGTON, Dec. 29.—As a re-
sult of a long series of conferences
between Judge Martin A. Knapp,
chairman of the interstate commis-
sion, and Hon. J. P. Mabie, chief of
the railway commission of Canada, an
agreement has been reached to recom-
mend to the governments of the
United States and of the Dominion of
Canada the creation of an interna-
tional railroad commission, which
shall have supervisory authority over
the railway rates in operation be-
tween the countries.

Mr. Mabie arrived in Washington
from Ottawa Tuesday night, in ac-
cordance with a previous arrange-
ment with Chairman Knapp. He came
to Washington finally to discuss the
details of an agreement he had
reached with Judge Knapp last Au-
gust and Wednesday the two officials,
who were designated by their re-
spective governments to consider the
subject and make a report upon it,
were in conference.

For a considerable period it has
been realized that the increasing traf-
fic, both newspaper and freight, be-
tween the United States and Canada
was likely to render control over rates
in the future difficult unless some in-
ternational action was taken. The
acquisition by American railroads of
Canadian terminals and by Canadian
railroads of American terminals and
lines present increasing difficulties.

In the existing circumstances it is
not possible to compel either rail-
ways or express companies to estab-
lish joint through rates and rates to
and from points in the two countries.
In other words, neither an American
nor a Canadian carrier may be re-
quired to furnish to a shipper a
through bill of lading from any point
in one country to any point in the
other.

Out of this situation grew the idea
of the creation of an international
commission, which should have su-
pervisory control over the railways
and other common carriers doing an
international transportation business.

It was the desire of Judge Knapp
that the report of Mr. Mabie and
himself should be completed and sub-
mitted before his retirement from the
interstate commerce commission.
Their labors will have been concluded
by Friday, on which day the report is
likely to be filed with the department
of state.

Let me "post" you on the fact
that fires in Winter are of a more
frequent occurrence than any other

I would suggest an examination

they amount to enough to fully

AUTO SHOW AT
QUEEN CITY

Every Standard Car in America Will
Be Shown at Cincinnati During the
Latter Part of February.

CINCINNATI, Dec. 30.—Prospect-
ive automobile purchasers of this
city and vicinity are preparing to
visit Cincinnati the latter part of
February to attend the annual auto-
mobile show, to be held in Music hall
from Feb. 20 to 25. This show will
allow those interested in motor cars,
either for pleasure or commercial
purposes, to see practically every
standard car now manufactured in
America, and give them the opportu-
nity to make comparisons such as
could not be gained in any other way.
The executive committee of the Cin-
cinnati Automobile Dealers' associa-
tion, which is conducting this expo-
sition, will give particular attention
to out-of-town visitors, of whom
many have already placed themselves
in correspondence with the commit-
tee for the purpose of learning all the
details of the show. As a result of
the visit to the exposition of many of
our prominent citizens it is confident-
ly expected that the coming season
will see the addition of many high-
class cars to the automobile colony
of this city and the immediately sur-
rounding country.

That the sentiment of the farmer
has undergone a complete change re-
garding automobiles during the past
five years is attested to by the fact
that more than 50 per cent of the
automobiles now being sold go to the
rural districts. More evidence along
this line is offered by the manage-
ment of the Cincinnati automobile
show, which will be held in Cincinnati
from Feb. 20 to 25, in the way of in-
quiries from farmers in various por-
tions of this state as to the details
of the exposition. These men are
eager to see the standard makes
of motor cars, and this show will give
them that opportunity, and also al-
low them to make comparisons. It is
expected that many more cars will
find their way to the farms as a re-
sult of this show.

HUNDRED PERSONS IN
DANGER OF STARVATION

Caught on Kelly's Island, in Lake
Erie, and Shut Off From Shore by
the Ice.

SANDUSKY, Ohio, Dec. 30.—One
hundred men, women and children are
in danger of starvation on Kelly's
Island. They are shut off from the
mainland by the ice and must remain
isolated.

When the steamer Lakeside started
to convey supplies to the islanders
Wednesday the trip was declared im-
possible.

The families in want comprise one-
fifth of the island's population. Sum-
mer residents have nearly all left and
village officials have failed to relieve
the suffering.

"Poor persons are walking bare-
footed along the shore, picking up
driftwood for their fires," Father F.
K. Wagner of Marblehead said.

The priest, with Father Wm. Kerze,
has had charge of the island parish.
It is feared the suffering may drive
some of the victims to violence. The
heads of the destitute families are
mostly quartermen. The quarries
have been shut down for several
weeks. Several widows, too, have
broods to care for.

Conditions at Marblehead are iden-
tical with those on the island. Father
Kerze and Father Wagner had tears
in their eyes as they told of the want
of their people.

"They must have help or they will
die," said Father Wagner. The island
is about 12 miles from Sandusky. Al-
though the ice is thick along the
mainland, a wide gap of water lies be-
tween it and Sandusky, prohibiting
crossing on the ice.

PRACTICAL BENEFITS
OF CITY BEAUTIFICATION

In a large way, the best concrete
example that will illustrate the ques-
tion of the value of city improvements
is the difference between Cleveland
and Cincinnati, says Franklin Clarkin
in "Success Magazine." In the last
few years Cleveland has given a great
deal of attention to city beautifica-
tion in the way of parks, play-
grounds, boulevards and her civic
center. These efforts have caused a
wonderful growth in property values,
in business and in the size of the
city, so that she has outstripped
Cincinnati, which city had a long
lead in advance of Cleveland.

Cincinnati has fallen behind large-
ly because she has not paid attention
to these features of her city. In the
last two years Cincinnati has wakened
up to this fact, and she is making
advances in the line of parks, play-
grounds and general city beautifica-
tion.

Columbus has had a greater and
better advertisement in the last two
years than at any time in her history.
Throughout the whole United States,
by simply publishing, two or three
years ago, a city plan, written by five
civic experts.

There is not a section of our city
of Columbus that does not show an
example of where the land values of
a neighborhood have largely increased
by the improvement of the property
of any one inhabitant of such a
neighborhood.
